*Education is often
but a
wandering
among learned men*

*as it grows
and moves*

*without telling
or knowing
why.*

*a universe
expanding*

*with the particular
of light edging a leaf*

*or
of a mountain.*

*Who but the You can know
how the sun feels*

*or what it is
to sit
questioning
alone.*

*Yet
You must always
remain
with the multitude*

*In a place
In a time
that bears watching*

Fall Activities

*Freshmen had a chance to meet
Acting Chancellor and Mrs. Miller
at the Chancellor's Tea.*

*Dr. Breck, Dr. Yourgrau, Dean
Lindell, and Dr. Driscoll
participated in a panel,
"The University Professor Looks
at the Student," one of the
many optional activities
during Pioneer Week.*

*"Maybe I should get out while the gettin's good" —
reaction of some students during the
millions of Pioneer Week meetings.*

The year at DU opened up slowly—like a relaxed yawn at the end of a hot summer afternoon. During a vague sometime around the middle of September, tanned students began drifting back to the University and to the mountains. The Greeks returned to clean house and plan parties, ice-water teas and skits for rush. Upper-classmen who lived off campus came back to hunt for new apartments or to resettle themselves in old ones.

With registration and classes off in the future—a week or two out of mind—most sat back, languishing in good spirits and the clear, fresh air of the high country. They waited for Sunday the 18th for the freshmen to tumble out of planes and cars under six trunks, two guitars and a pair of skis. They waited for the fun to officially begin.

At ten o'clock that Sunday morning the residence hall doors were unlocked to ad-

mit 1100 separate turmoils—and the 1966-67 year of campus activity began.

Officially, the title beginning Sunday was **Pioneer Week**. Unofficially, it was laughingly-cryingly referred to as Organized Chaos. Freshmen met their Pioneer Guides, their Big Sisters, their roommates—and scurried around trying to look and act like they knew what was going on. They dumped load after load in new rooms, attempting to arrange drawers and closets around teary-eyed mothers and fathers with backaches. In the midst of bewildered grins and nail-chewing confusion, the new names, new faces and new surroundings, the green, insecure class of 1970 met their **Acting Chancellor Miller** at the tea for them and their parents, and filed along behind their Guides on campus tours. That evening they found themselves herded into the arena for sack lunches, administration addresses and beanie-buying.

*Young Republicans campaigned whole-heartedly
for their candidates at their
Activities Fair booth.*

*Marvie Sutton recruits a new Alpine Club
member at the club's winning booth
at the BOG Activities Fair.*

*Bewildered students bought
books and books
and more books.*

For the most, registration meant standing in endless lines.

The hectic week of orientation actually began in earnest on Monday with the **All-Women's Meeting** and the **AWS style show** for big and little sisters. The initiation into University life also sent freshmen running to placement exams, medical exams, swimming exams and the traditionally taxing social exam aptly called **Rush**.

Tossed into the middle of the week's snarl of activities was the frustrating, exhausting experience of registration. Would-be students spent maddening hours wandering from ID photographing to department tables to advisors to check-out stands to financial windows with registration booklets and twenty-odd cards gripped in their tired hands.

At the **BOG Activities Fair** each campus organization furnished information on their particular programs and signed on prospective members, and the **Alpine Club** schussed off with the best booth award.

The long wait to talk to an advisor was only one of the many registration hold-ups.

Some quick sign-painting was done minutes before the groundbreaking ceremonies for the Space Science Research building.

Folk singer Guy Carawan entertained September 30 in a concert co-sponsored by the Arts and Sciences Commission and the Denver Friends of Folk Music.

The SU Lounge was then turned to outer space for a **NASA exhibit**, held in connection with the groundbreaking ceremonies for the Space Science Research building. Astronaut **Scott Carpenter** appeared for a talk and discussion with faculty and students.

September 23 — first day of classes and many long-held breaths were slowly let out. To finally settle into a routine was a welcome relief for most.

"To be or not to be" a Greek was the traumatic question still left to be answered. Preferential dinners were the climax to **Rush** — the smiling, the barrage of conflicting points of view concerning fraternity-sorority affiliating, the chitchat about home towns and majors — came to a quick and silent halt as the rushees plodded back to their dorms to sit nervously waiting for the bid pick-ups.

Astronaut Scott Carpenter came to campus for the Space Science Research building groundbreaking ceremonies.

For many, the trauma of Rush was well worth it.

Tau Kappa Epsilon's dance with the Association left the crowd stomping and whistling for more.

October 14th's snowfall left the campus buried under snow-covered branches.

Some students attended Freshman Camp to be "enlightened and fulfilled."

Freshman Camp offered many students a first close-up view of the mountains.

Seven hundred freshmen evacuated the campus on October 7 to attend **Freshman Camp** — the long-awaited and badly needed chance to ask questions of faculty and upperclassmen about the University, to compare notes with other freshmen, to be in the mountains and to be "enlightened and fulfilled" (as the brochure read). Many freshmen climbed their first mountain that week-end.

Colorado weather bluffed the campus into thinking winter had arrived when, on October 14, the first heavy, wet snow fell. Trees still decked out in autumn foliage sagged and broke under the massive loads of white. Students took one look out their windows, yelled "Are you kidding me!?" and gleefully decided to swap classes for a snowball fight or a few extra hours sleep.

Tau Kappa Epsilon brought **The Association** to the SU Lounge for an all-campus dance. Playing to a hot, hand-clapping, swaying room of bobbing heads, their music and their rhythm left the capacity crowd stomping and whistling for more.

Tumbling River Ranch, framed by patches of snow, bare-limbed aspens and a warm wisp of smoke, housed campus leaders and their mentors for a weekend of "how-to."

English professor Robert D. Richardson, right, adds some informal pointers on leadership to the techniques demonstrated in more structured sessions.

Leadership Conference — and the Big Men and Women On Campus rolled off to Tumbling River Ranch in the mountains for a weekend of intensive seminars and discussions on interpersonal communications and group dynamics. The speech department sent fourteen faculty members to direct the sessions from which many students returned with a deeper awareness of themselves and the people around them.

The DU theatre opened its 1966-67 season with a successful presentation of Robert Bolt's "A Man for All Seasons." Both the people of Denver and the students of the University paid the show the highest accolade possible — the demand for tickets was so great that an extra weekend performance was scheduled.

By October 25 the Colorado weather had turned to sunshine and shirt sleeves. No hint remained of the previous snowfall — except for a few broken branches from trees which still held their leaves.

Any cultural gaps remaining in the total picture of a "college education" were filled by the Lamont School of Music when it sponsored a concert by the University of Denver Symphony Orchestra on October 26.

Parents' Weekend was meticulously scheduled and detailed. Some students were bored because their parents came, others were disappointed because theirs didn't, and still others were adopted by visiting parents.

Father Gerard Schubert portrayed Sir Thomas More, a man bound more by his conscience than by his king, in Robert Bolt's "A Man for All Seasons," first University Theatre presentation of the year.

Vacant table settings at a dinner at the Phipps Tennis House were silent evidence of parents who couldn't — or didn't — make it for Parents' Weekend this year.

*Gastro-intestinal gasper
grabs girl in Beta skit
that missed Greek Week
prizes despite a gusty
message.*

*Nipsey Russell and Nana
Mouskouri donned rare
frosh beanie and Greek
festival garb, respec-
tively, to vary fare at
the Belafonte night.*

*Four Saints provided
bonus entertainment at
Greek Week Ball at the
Denver Hilton.*

Belafonte began his career with a spontaneity now missed by some in his professionalized format — but the voice, the warmth, and the crowds were there — almost the mixture of yesteryear.

Theta Chi's, shown here with vocal excellence clearly on their minds, took first in Greek Week skits.

Greek Week — defined by an Alpha Gamma Delta-Alfa Tau Omega skit line as “when you have enough chicken wire left over to fence in all the turkeys who came through rush” — ushered in November, complete with God and Goddess (Kappa Sig Bob Fitzner and Delta Gamma’s Miriam Olson), a serious lecture by Boston U. prof Murry Levin on Kennedy-style politicking, and a philanthropic project of bringing parentless Denver youngsters to a Children’s Theater production of “The Dancing Donkey.” Throw in Greek Week skits, a ball at the Denver Hilton with the Four Saints for an entertainment plus, and a Harry Belafonte-Nipsey Russell-Nana Mouskouri show — and you’ve had a busy week.

Acting Chancellor Miller aids Secretary of State Dean Rusk in preparation for the All-University Convocation.

Not everyone liked it, but the University honored Secretary of State **Dean Rusk** with a degree when he spoke for the opening of Ben M. Cherrington Hall, new home of the Graduate School of International Studies.

Student (and some faculty) protests were very evident. The Secretary made an impromptu and off-the-record visit with **Omicron Delta Kappa's** session at the Phipps House, the **Student YM-YWCA** held a critique on Rusk and Viet Nam in general, and the **Student Senate** vetoed an apology letter to the Secretary.

Less controversial events ending fall quarter were the lectures of **J. V. Cunningham**, Brandeis University English professor, who tackled the structure of poems, and Evangelist **Francis Schaeffer**, Student Senate-sponsored speaker, who proposed a rational approach to Christianity in harmony with modern science.

To add light heart to all the enlightenment, the Theatre Department brought on the spectacular comedy of the early French stage, "Master Pierre Patelin."

Students protested Rusk's honorary degree on the basis of his Viet Nam policy.

French comedy "Master Pierre Patelin" delighted DU audiences.

*The Honorable Secretary of
State Dean Rusk was present
for the dedication ceremonies
of Ben M. Cherrington Hall.*

Fall Sports

The name of the game is **soccer**. The rest of the world calls it football, but they don't have football as we do in the U.S. Then again, we don't have it at the University of Denver either.

Despite this handicap, coach Willy Schaeffler's kickers entertained those interested by extending the Pioneer winning streak to 25 and completing the third straight unbeaten season.

The Far Western Soccer Selection Committee apparently found another handicap against the Pioneers. The committee overlooked the region's best collegiate soccer aggregation when picking the teams for the NCAA post-season playoffs because of two ineligible players.

Contrary to the notion that a team effort was involved in DU's winning season, the selection committee felt the success was centered around these two ineligible individuals. Hubert Charnaux and Frank Tuss were not the top scorer or the outstanding goalie on the team, but a full-back and a wing. According to the committee, the ineligibility of Charnaux and Tuss for post-season competition materially weakened the Pioneers and thus no berth was awarded.

With increasing popularity of soccer, DU spectators supported the team via spirit, voice and crowds. During Parents' Weekend nearly 3000 fans watched the Crimson and Gold down Wyoming in a night contest at the Stadium.

Sophomores Georg Krog and Arie DeGroot were instrumental for the second consecutive season in the success of DU's answer to football. Goalie Krog allowed only five goals, while stopping 56 attempts for a seven saves-per-game average. DeGroot provided the offensive punch. The center forward broke an all-time single season goals record by tallying 31 markers. DeGroot added five assists for 36 total points, which moved him into second place on the list of career scoring leaders.

Although not gathering the bulk of publicity, Oivind Skauerud and Sergio Carvacho did play. Skauerud scored 29 total points and moved into the top spot as the leading career scorer with 72 tallies. Carvacho, a workhorse all fall, put on a late scoring surge and finished the year with 24 tallies on 16 goals and 8 assists.

DU's builder of champions, Willy Schaeffler, talks with his unbeaten, untied soccermen during a practice session.

Tricky ball handling is an important part of the game DU calls soccer. Mistakes in this aspect can lead to embarrassing situations.

Leading scorer Arie DeGroot puts his foot into an attempted shot. The All-American candidate broke a single season scoring record with 31 points.

The Pioneers are in front, for a little while anyway, as Chris Beattie leads the pack at the start of the DU Invitational held at Washington Park.

Senior team captain Harald Bjerke was the top Pioneer distanceman, finishing first in a dual meet with Colorado Mines.

Like the soccer team, the DU cross-country squad scored more points than the opposition — and finished the season winless. They did, however, finish.

Suffering from a lack of interest and personnel, the Pioneer distancemen turned the season into a game of follow-the-leader.

Senior team captain Harald Bjerke took enough time off from soccer practice to provide the only bright spot in a dismal season. Bjerke finished first in the closest attempt at team victory, a 26-29 dual meet loss at Colorado Mines.

Pushball, bowling, golf, ping-pong, volleyball, cageball and wrestling dominated the fall quarter's intramural activities. Participation was the goal of the intramural program as fraternity and independent teams competed for the various minor-sport titles. Kappa Sigma won the all-school touch football crown with an unbeaten season, but what else is new?

Grace often dominates intramural competition although the actual play is sometimes ragged.

Body contact is taboo in intramural touch football competition, but I-M gridders found there was little touching.

Brute strength was the name of the game when pushball initiated the fall quarter's intramural activities.

Controversial Bishop James Pike was the main attraction during AWS Women's Week. Also featured was a panel on controversial campus morals.

Ski-tanned students drifted back to the sleepy campus following the three-week Christmas break. Registration, which some students regard as a lesson in bureaucratic futility and others quietly endure as a necessary evil, was once again slow and confusing. Missing winter quarter were the faces of about 500 students who had either been asked not to return for academic reasons, or had simply dismissed the whole learning process as somehow being irrelevant to their existence.

Filing into classes, some students were greeted by a professor whom they thought might bring a new insight and challenge to tried and true subjects. The majority, however, soon realized that even though the instructor's face was new, the learning approach would be the accustomed regurgitation of spoon-fed facts. Hidden in the lethargy of the daily routine was the small group of students and professors who became thoroughly engrossed in the learning experience. The pattern was established. Winter quarter would be no different from fall quarter.

While most of the 7600 students were trying to decide what a professor liked to read on term papers, or still awaiting the necessary textbooks to arrive at the bookstore, or merely existing and passing time, the University and the Associated Women Students proclaimed a week to honor women in general, which includes the 3000 women on Campus. With an "Alice in Wonderland" theme, **Women's Week** events included a style show, a Mad Hatter's Ball, a "**Petticoat Reign**," in which selected, mature women students got to play like being one happy group of University Administrators, and an awards banquet, which gave kudos to campus coeds who best typified the roles of campus coeds. Suzanne Llewellyn, a senior from Billings, Montana, was named Miss DU at the annual AWS banquet.

Significant events during **Women's Week** included a panel discussion on campus morals, a much-needed fresh approach to the age-old subject, and a folk religious service, an attempt to express a modern religion for a new society. The most relevant event of **Women's Week** was a lecture by the controversial Bishop **James A. Pike**, which brought Alice out of Wonderland and into reality.

Winter Activities

Chummy little fellows advised students as to how the piles of registration cards should be filled out.

"Much Ado about Nothing"

After Pike left the campus, the activists stayed active by turning their attention from the dichotomy between science and religion to the reality of the war in Viet Nam. With more than 200 students and faculty assembled in the Student Union Pioneer Room, **James Erdmann**, assistant professor of history, and **George Shepherd**, associate professor of international studies, debated the issues of the war in Viet Nam.

The debate, sponsored by the **International Relations Club**, was one of the few joint faculty-student programs during the year. Hotly contested and interspersed with considerable audience participation, the debate proved that education can be quite stimulating when both students and faculty are eager to participate in the learning process.

The **International Relations Club** also sponsored a talk by Colorado Republican Senator **Peter Dominick**. Before an audience of only 30 students, Dominick warned, "There should be a cautionary influence of the power of one man in determining foreign policy." Asking the small group of students not to distrust the military, Dominick said, "Is there something wrong with using the military to implement a solution?"

Even though the campus was buzzing with intellectual activity the last week in January, only a small percentage of students deemed discussions on Viet Nam or a lecture by one of the foremost clergymen of their time as being relevant to the real issues — such as the snow depth at their favorite ski areas or the selection of a band for the next student mixer.

"Much Ado about Nothing"

James Erdmann and George Shepherd of the departments of history and international studies, debated the issues of the war in Viet Nam.

The performance of Shakespeare's **"Much Ado About Nothing"** in the University Theatre the last week in January summarized the typical student's apathetic attitude toward the activists. Incidentally, **"Much Ado About Nothing"** was typical of the many excellent plays at the University Theatre during the year. Jean Holloway and Gary Wayne played the lead roles in the production directed by Dr. Edwin Levy.

Among the outstanding lectures on campus winter quarter were the annual University lecture and the Buchtel series sponsored by the chaplain's office. In the annual University lecture, Dr. John Williams said the novel would continue to thrive in spite of its shortcomings and the shortcomings of its critics. In one of the five Buchtel lectures, Dr. Burton Feldman surveyed the "Death of God" movement, stating that it isn't a new problem, but the paradox of the present "Death of God" school is that somehow modern questioners want to remain Christians.

The New Christy Minstrels

A mod mixer was one of the highlights of Interhall Week.

Real gambling equipment made a much more authentic Parisian casino.

A college bowl was part of the week's activities.

Students in the dormitories got their chance to celebrate something special during the annual Interhall Week. Events included a mock casino, a dance at the Denver Hilton, a concert by the New Christy Minstrels and open houses in the residence halls. To add an authentic touch to the Parisian Casino in Centennial Halls, gambling equipment was borrowed from the Denver Police Department, who borrowed it from real gamblers.

The New Christy Minstrels provided an evening of fine entertainment to highlight the festivities of the week.

A good game of broom hockey meant some stiff competition for the dorm residents.

JoAnn Bennett and Judy Branick debated the worth of the DU yearbook at the Student Senate sponsored "Can the K-Book" forum.

Engineers also had their special week to enable students to further explore their professional futures. During the **Engineering Symposium** in a lecture that sounded more like a Jules Verne novel than reality, **Maxwell Hunter, II**, affiliated with NASA space programs, told a small audience that one of tomorrow's biggest business opportunities may be in space commerce.

Later in the quarter, **Professor Max Beloff** of Oxford University took issue with the "domino" theory in Southeast Asia, adding that the U.S. relations with Asia generally have been failures.

In one of the few joint student ventures during winter quarter, the **Jazz Band**, **Men's Glee Club** and **University Chorale** presented an evening of music, "**Up Tempo '67**," at the Denver Auditorium Theatre. While student interest in the event lagged, a moderate size crowd turned out on a cold evening to hear the University musicians.

Even a student debate on the function and future of the **Kynewisbok** proved futile. Only 18 students turned out to hear the **Student Senate** debate the Kynewisbok editor on whether the effort to publish a yearbook serves any valid purpose.

Engineering students explored their professional opportunities during the Engineering Symposium.

"Up Tempo '67" was a joint venture of the Jazz Band, Men's Glee Club and the University Chorale, presented at the Denver Auditorium Theatre.

Spurs ran the moderately successful Winter Carnival ski swap.

Students put away their worries of term papers, books, debates and lectures to frolic in the snow during **Winter Carnival**. Highlighted by a concert by folk singer **Judy Collins**, other events included a ski swap, fashion show, ski movies and ski competition at Winter Park. Classes were dismissed for the annual one-day exodus to Winter Park.

Folksinger Judy Collins sang to a very receptive audience in the Student Union.

Singer-guitarist Mike Johnson pleased the audience by being a first-rate second attraction.

Winter Park was the setting for the 1967 Winter Carnival Ski Day.

Skiers competed in a series of races, both serious and for fun.

Non skiers were able to watch the skiers from the warming house with musical accompaniment.

*Packing to go home, even for a week,
is a major production for most DU coeds.*

Mozart's "Cosi Fan Tutte" was presented as a joint effort by the music and theatre departments.

Theatre and music departments joined forces to present the annual opera to DU audiences. With theatre people mainly backstage and the musicians on, Mozart's "Cosi Fan Tutte" pleased all the crowds.

The realities of term papers, unread chapters of textbooks and final examinations came long before anyone was ready for them. Some crammed, cursed and somehow managed to endure without really learning anything. Others met their courses headon, determined to get at the essence of a course rather than just set an endurance record. But in the end, most merely counted 12 or 15 or 18 more hours toward graduation, methodically calculated a grade-point average and hastily departed for spring vacation.

Winter Sports

Just when **ski** fortunes on the Hilltop seemed to be fading, the University skiers captured their seventh straight NCAA championship to cap a bizarre season. After winning their initial meet of the season in mid-December at Aspen, the Pioneers dropped three straight meets. With Coach Willy Schaeffler spending most of the season in Europe on a promotion trip, the coachless skiers finished third at Crested Butte and Park City, Utah, and wound up fifth in the DU Winter Carnival. Many of the top DU skiers missed most of the regular season events, choosing instead to participate in the more prestigious European meets. However, Schaeffler and the squad re-acquainted themselves in time to win the NCAA qualifying meet.

In the national competition at Kingfield, Maine, the Pioneers survived a costly disqualification in the cross country to capture the school's 16th NCAA title. Ironically, Georg Krog was the big man in the NCAA competition, earning a second place in the jumping competition after being disqualified in the cross country for allegedly letting the coach wax his skis. Rick Chaffee won the national slalom title followed by teammate Terje Overland. Dennis McCoy won the downhill with Overland once again finishing a close second.

A consistent scorer in downhill and slalom competition, Terje Overland displays the winning form that ranks him among the best collegiate skiers.

Rick Chaffee displays the winning form that helped him finish among the leaders in downhill competition. Chaffee also captured the NCAA slalom title.

Besides being a top goalie on the soccer team and an outstanding ski jumper, Georg Krog often was out in front in cross-country skiing competition.

Showing the competitive spirit that brought the Pioneers their seventh straight NCAA championship, a skier strains to improve his time.

Jumper Georg Krog sails through the air during a season's jumping event. Krog's second place finish in the jumping at Kingfield, Maine, clinched a seventh straight NCAA skiing title for the Pioneers.

Lou Geddes fires the puck past an opponent's goalie while Wayne Wiste waits in front of the cage for a possible rebound.

The Minnesota Duluth goalie watches as the puck slips under his leg. The goal was one of six scored by the Pioneers in an easy victory over the Minnesota school.

Officially the DU hockey team finished second in the Western Collegiate Hockey Association. Unofficially, they were runners-up in a national championship contest at Grand Forks, North Dakota. After a slow start in which they won only three of eight games, Coach Murray Armstrong's skaters won 19 of their last 22 contests. The rapid finish placed the hockey team second in the final WCHA standings, with a mark of 11-5.

But the key to the season for the Pioneers was the final game of the WCHA playoffs at Grand Forks. In an affair that many thought decided the national championship, North Dakota eliminated DU from the NCAA tournament with a 3-2 setback.

The young group became the seventh hockey team in DU history to win more than twenty games in a single season. In the process of accumulating a 22-8 overall mark, the DU icers set a record for scoring ten goals while shorthanded.

Junior Jim Wiste, an all-league selection, topped the team in scoring with 24 goals and 28 assists for 52 total points. Wiste teamed up with Bob Trembecky and Craig Patrick to make up one of the most exciting lines ever to play for the University. Tom Miller, who tied Wiste in goals scored with 24, co-captain Lou Geddes and Wayne Wiste also provided explosive offense power. Keith Magnuson, an all-WCHA defenseman who tied for sophomore of the year honors, anchored a young defense corps. Senior co-captain Jerry Petrie was the only veteran, teaming with Magnuson, Tim Gould, Randy Ward, Dale Zeman and goalie Gerry Powers to allow opponents only 2.97 goals per game.

*Wayne Wiste loses a faceoff
to a North Dakota center.
Not pictured is the K-Book
photographer who hung from
the Arena catwalk to
capture the action.*

*An unidentified DU skater
fights for the puck with a
North Dakota player. North
Dakota was the continual
nemesis of the Pioneers
during the year.*

The high scoring line of Cliff Koroll, Jim Shires and Tom Miller congratulate each other after combining to score an important goal. Defenseman Jerry Petrie looks on.

Coach Murray Armstrong

Sophomore goalie Gerry Powers uses all of his available equipment to block a shot during a close hockey game.

North Dakota was a frequent foe of the Pioneers, with four scheduled games and playoffs in March at Grand Forks that sent DU hopefuls back from WCHA playoffs. Left wing Craig Patrick makes a determined block here as the Nodaks go for the puck in an early February encounter.

Ignoring the puck, a Michigan State player looks bewildered as a teammate puts Jim Shires in a bear hug.

Coach Troy Bledsoe

Outside of playing on the road and losing in the closing seconds at home, the basketball team had a successful, though disappointing 13-12 season. DU won only four of 13 road games, and spoiled a perfect home season with three late season, last minute setbacks to Utah State, Tulane and Wyoming. However, Coach Troy Bledsoe's team during the season defeated Wyoming, New Mexico and Marquette, all of whom participated in post-season tournaments, and tough intrastate rival Colorado State University.

Hot shooting Harry Hollines, a District Seven All-American selection, a member of the All-Area independent team and

Guard Gerry Grover is out-jumped by a taller man in a home contest. Student interest and attendance was noticeably up at basketball games during the year.

Harry Hollines adds two more points on his way to shattering Pioneer scoring records.

the area's most valuable player, led the Pioneers in scoring for the second straight year. Besides his 24.8 scoring average, the left-handed jump shot artist topped the team in field goals, free throws and free throw percentage. Byron Beck, who must rate as one of the best frontliners in DU history, averaged 13.9 points per game. Team captain George Roderick was the top rebounder, while Rick Callahan contributed most of his efforts defensively. Gerry Grover turned out to be the crowd pleaser with his steals and driving layups.

Coach Jerry Cole's guard combination of Horace Kearney and Doug Funk led the freshman team to an impressive 11-5 season.

Adding color and excitement to the Pioneer sports events during the year was this group of cheerleaders.

Harry Hollines drives by a Colorado State University defender for a layup in a game at the Field House. Hollines was named to the 1967 Look Magazine Basketball Writers Association Regional Team.

A Pioneer swimmer kicks and strains his way to victory in a butterfly event.

Coach Tom Murphy

Pioneer swimmers pause for a break during a rigorous training session.

Jerry Schirm demonstrates his strength and coordination high above the floor.

Youth dominated the gymnastics team, but Coach Doug DeWitt's gymnasts performed like veterans in posting a 10-2 dual meet record. Only defending Western Athletic champions Arizona and defending Big Eight titlist Iowa State marred an otherwise perfect campaign for the Pioneers, who had only one senior on the squad.

The sophomore trio of Cliff Cauthier, Frank Scardina and Fred Schandberger were the most effective performers for DeWitt. Senior Mike Gurian, Ron Mustain, Tim Parsons, Jeff Baird and Jim Castles also managed good efforts. Cauthier, Gurian and Mustain, who dive for the swimming team, were three-sport men. The gymnasts-swimmers were often converted to trackmen running between the field house and the swimming pool in order to compete for both the swimming team and the gymnastics squad at the same time.

The veterans and newcomers of the swimming team combined to give Coach Tom Murphy another winning season. Senior captain Frank DePace and sophomore ace Tom Chamberlin shattered many pool and team records in leading the mermen to a 5-4 dual meet campaign. Chamberlin and diver Mike Gurian qualified for the NCAA championships. All-American hopeful DePace failed to make the NCAA competition because of a broken arm. Bill Gage, Dave Jaskiewicz, Warren Johnston, Dave Rosenthal and Rick White supported the point-producing DU duo.

Jim Castles swings gracefully on the parallel bars while piling up points.

All eyes are on the ball as an intramural player lofts a hook shot. Many outstanding players participated in IM basketball competition.

Although the wrestling team suffered through its zilchteenth losing season, several grapplers showed promise that better days are ahead.

The Pioneer **wrestling** team looked impressive in pre-match warmups, but did not win a single meet during the season. Larry Gallegos, Art Bacon and Dennis Patterick did manage to win occasionally for Coach Tom Sand's grapplers who dropped seven consecutive matches. Gallegos won consolation honors in the 123 pound division in the Mountain intercollegiate wrestling championships, while Bacon finished fourth in the same tournament.

The intercollegiate bowling team finished in the Rocky Mountain Intercollegiate Bowling Conference, even though it was in seventh place. Bob Held was the top pinman of the club which was plagued all season by inconsistency. Team captain Jim Benton, Bob Krenzer, Harry Tolve, Reed Sladen, Bill Lacock and Steve Stavis also bowled for the Pioneers, who made their biggest impression via their good-looking bowling shirts.

Intramural competition was dominated by the quarterly intramural powerhouse, Kappa Sigma. Edging the Phi Sigs for the fraternity **basketball** crown, the Kappa Sigs added to their overall point total by winning the all-school cage classic from Centennial Towers.

However, the Has Beens, I-M office, Betas, Independents and Pikes also shared a little glory by winning the **badminton** singles, badminton doubles, **skiing**, **billiards** and free throw titles respectively.

Bob Firing looks over the situation before making a shot in an intramural billiards match.

Kappa Sig opponents tried all sorts of methods to defeat the perennial intramural champs — including making faces at them. The Kappa Sigs won the game; the face-making contest was a draw.

Spring Activities

SDS, LSD, SS and SS dominated the Spring quarter at the University. The **Students for a Democratic Society** challenged the authority of the Student Senate to define a student organization, the University chastised some students for their alleged use of the drug LSD, and the **Selective Service** questioned the privileges of students in general.

By the end of the quarter, SDS had successfully challenged the weak powers of the **Student Senate**, and the University had suspended a handful of students for use of LSD and issued a nebulous letter "clarifying" the University's position on the use of the drug. **Arlo Tatum**, executive secretary of the **National Committee on Conscientious Objectors** had spoken to a large group of students, while the **Selective Service** continued to administer "deferment" tests on campus.

Despite all the fuss over student rights, the infringement of the Selective Service and the authority of the University, the biggest noise heard all spring originated from a group called the "**Animals**," which bellowed and moaned a concert before a packed house in the Student Union. **Sammy Davis Jr.** provided more sophisticated but expensive entertainment for those who could afford \$6 to listen to the echoes and reverberations in the University Arena — a World War II surplus storage depot, turned Arena, turned concert hall.

A student pauses to think of the implications of the draft test upon his future.

*Students turned out in packs
to listen to the moans of
the "Animals."*

*Sammy Davis Jr. thrilled a
capacity crowd which paid top
money for top entertainment

Dr. Arnold Toynbee, who was on campus for a week, explains a point to students at an informal seminar at the Phipps House.

Arlo Tatum, executive secretary of the National Committee on Conscientious Objectors, told students of honorable alternatives to the draft.

Almost obscured by the clatter and clash of daily events were an excellent University lecture series and a visit by world renowned historian Dr. Arnold Toynbee. The annual 20th Century Lecture Series sponsored by the English department featured such speakers as historian Henry Steele Commager and psychiatrist Rollo May. Toynbee was on campus for one week, giving a public lecture and meeting with small groups of students at the Phipps House.

An intellectual highlight of the Spring quarter was the establishment of a "Free University" on campus, which promised to return education to its pure form — without administrators, fees, or clichés of academic excellence. Although about 100 students registered for courses, the "Free University" suffered administrative problems throughout the quarter. Registration for "Free University" courses was \$5 per class.

The "Free University" offered courses ranging from Southeast Asia to Interpersonal Communication — for a slight administrative fee.

A sure sign of the arrival of Spring is the annual flow of soap suds in the Harper Humanities Garden.

The annual rites of Spring, better known as **May Days**, once again was reasonably successful due mainly to some excellent planning by a committee that worked hard all year to assure the event's success. **Foreign students** at the University staged a successful International Day in the Student Union, featuring songs and dances and colorful exhibits from the students' native lands.

The Student Senate also staged its annual rite, better known as **Student Government Elections**. The affair followed its established pattern with a lack of candidates, issues and voters.

It all ended with **graduation** — an event which had as many meanings and interpretations as the number of students completing four of the most enjoyable years of their lives.

People sitting under trees on a spring day convey many meanings. The K-Book staff invites you to write your own caption.

Added to the Humanities Garden this year was a "Thing," a simple, yet intriguing sculpture which symbolizes some phase of man's struggle for knowledge.

James Johnston, assistant professor of Business Law, holds the attention of a large group during a Bizad Week lecture on "The Death of Christ."

Ace righthander Paul Epperson (above), delivers a pitch to a CSU batter. The senior mainstay of the DU mound staff shutout the Rams 7-0. Rightfielder Willie Sanchez (below), executes a perfect bunt in a game against Colorado Mines.

Pitching was the key factor for the DU diamondmen in their quest to dominate the spring sports scene. With good offensive and defensive power, the Pioneers were strong contenders for the NCAA District Seven playoffs.

Paul Epperson, 10-5 for the past two years, and Dick Watkins, who managed a 7-1 record in 1965, were the mainstays of Coach Jack Rose's mound staff. Jim White, Ed Menaker, Bob Crandall and Mike D'Aquila were also included in the pitching rotation.

Veterans held down the other positions on the team. Bob Fitzner, a 1966 District Seven all-star catcher with a two-year batting average of .359, slugging center-fielder Bill Sluka with a .362 two-year average at the plate and thirdbaseman Gerry Grover, a .343 batsman during the past two campaigns, gave strong hitting power to complement the good pitching.

Firstbaseman Craig Hansen, second sacker Gary Ambuehl, shortstop Ron Newell, leftfielder Wayne Moretti and rightfielder Willy Sanchez completed the experienced lineup.

First baseman Craig Hansen holds a runner close to the bag. One of the top three Pioneer hitters in early season contests, Hansen was a big factor in DU's drive for a spot in the NCAA District Seven playoffs.

Hansen stretches for a throw to make a putout before an Air Force Academy runner can reach first base in a game at the Hilltop diamond.

Club. Hagen along with four other
experienced netters gave coach Bob
Richards one of the most feared
tennis teams in the area.*

Earl Brotten breaks the tape in a 440 yard dash, a scene not repeated too often since his graduation

A 13-1-1 season is hard to duplicate, but the Pioneer tennis team was out to equal last year's mark with essentially the same squad.

Four lettermen returned from the 1966 tennis team called the best in DU history. The only newcomer was experienced Jack Schwartz, who was ineligible a year ago because of a scholastic technicality.

Tom Deardorf, Jim Edwards, John Hagen and Ken Rupp returned to make coach Bob Richards' netters the most feared team in the region.

The same old problem faced DU track fortunes, which resulted in coach Jack Mansfield resigning before the season started. This year's team didn't take exception to the annual rule as the Pioneer thinclads featured a few outstanding performers, but lacked the depth to be contenders for team honors.

Pole vaulter Bob Weisner; high jumper Bill Slaichert, and sprinter Dan McDuffie were expected to win many individual honors. Pat Amato and Rich Edwards also were expected to be contenders for honors as they tried to fill the gap left by Earl Brotten in the 440 and 220 yard dashes. Brotten, who graduated last June, holds the school record in the 440 yard dash and was a strong performer in the 220 and on DU relay teams.

Tom Deardorf stretches for a return shot in a game against a Regis opponent early in the season.

A Beta Theta Pi runner gracefully sprints toward first base in an intramural softball game. Softball dominated I-M activity during spring quarter.

The non-subsidized golf program was again expected to produce a winner. In the "play for fun" atmosphere, DU linksmen held their own against some of the nation's toughest competition. Jerry Cole replaced Murray Armstrong as mentor, and another .500 season was expected.

Letterman Steve Stitt returned to captain the Pioneers. Other returning lettermen to represent DU on some of the area's best golf courses included Dave Bassett, Gary Burton, Dan Haskell, Paul Kunkel, Ken Lauerman and Jerry Petrie.

Hoping to improve their chances for varsity status, the club-organized lacrosse team was a strong contender for first division honors in the Colorado Lacrosse Association.

Led by attackmen Garry Garratt, Tug Howe and Sandy Larkin, the lacrossers were expected to turn in their first winning season of their two-year duration on the Hilltop.

Nothing different was anticipated in the spring quarter's intramural activities as the **Kappa Sigs** were certain to win total point honors. Defending softball champs **Phi Sigma Delta** and Small Fraternity League power **Pi Kappa Alpha** were expected to increase their point standings via good softball campaigns.

Lacrosse combines the skills of hockey, the strategy of basketball and the blocking of football.

Pete Richardson coached the DU lacrosse club during its second year on the Hilltop. Pioneer stickmen were looking for their first winning season.

A Pioneer golfer prepares to hit an approach shot as he battles against the man-made obstacles and sprinklers as well as the Denver Country Club golf course

Mary Jane Daly reigned over the annual Winter Carnival festivities.

John Nelson crowns Shari Strandell Engineers' Queen at a Spring awards dance.

Bob Fitzner and Miriam Olson were chosen Greek God and Goddess during Greek Week festivities in the Fall.

Royalty

Holly Smith was named Miss Colorado after being selected 1966 University May Days queen.

From participating in a play in the Little Theater to engineering programs over the campus radio-tv network, students at the University had the opportunity to develop their talents. Among the plays presented by an outstanding student Theatre group were "Much Ado about Nothing" and "A Man for All Seasons." Art students exhibited their work in shows, while the School of Music presented several outstanding performances.

A campus-wide television experiment enabled future producers, directors and engineers to broaden their talents, while campus radio **KVDU** provided music and coverage of significant events. Campus publications were as numerous as campus interests, ranging from the literary **Foot-hills** to the nonsensical **Flarion**.

KVDU-TV Channel 11

An Experiment in Educational Mass Media

New this year, Channel 11 television for the DU campus, is involved in an experiment in educational mass media. Center of the growing activity surrounding KVDU-TV, the Radio-TV Building is also the home of the Mass Communications Department. Under the direction of Noel L. Jordan, chairman of the Mass Communications Department, and Chief Engineer John Seide, many weekly hours of closed circuit productions are planned, produced and broadcast from the DU campus. Working this year with a \$60,000 grant from the Carnegie Corporation, the faculty-student teams for Campus TV produce and direct fifty to sixty hours of educational programming each week in an experiment to test the value of television as a medium of education beyond the confines of the classroom.

Each program is a product of combined student and faculty ideas and activity. Student technicians, surrounded by a maze of dials, switches and monitors, coordinate the audio and visual recording of the productions. A massive complex of electronic equipment supports the three video-tape recorders, which reel the program onto spools of two-inch magnetic tape.

These tapes are stockpiled and later broadcast over the three-branch distribution system of KVDU-TV. One branch feeds through an underground conduit to Boettcher Auditorium where a projector, looking like a miniature jet engine, projects a bluish image across the 7'x 9' screen.

and a "technological sprout" (the stubby, nondescript post, an amplifier in disguise), to centralized television receivers in the residence halls. The third burrows its way through a jumble of books to the top of Mary Reed Tower, where a six-foot dish antenna bounces micro-wave signals off a downtown building to a receiver on the roof of the Bizad Building.

Through these three systems flows a blend of educational programming and entertainment featuring televised lectures in zoology, psychology and principles of accounting, and student-faculty boards "speaking out" on current issues. Produced from a single location, in an atmosphere of attention and smooth efficiency, these may reach almost every student on campus.

With the support of the grant and the growth of the mutual attraction between the DU campus and Channel 11, KVDU-TV is expanding into additional major series, tuned to the student ear. Hopefully, the scope and number of productions will increase, advancing KVDU-TV's effectiveness as a technological aid to education.

Dials, switches, monitors and a director — the nerve center of television production.

The University and Denver - the sight of growth

DU sits in University Park like an off-round wheel with its hub pinned by Mary Reed tower. Seventy-seven years ago when "Old Main" was built, University Park was no more than an ugly, barren hill rising out of the plain three miles south-east of Denver. It was a quiet place removed from the city for scholarly work and study. In the early years students could see Denver at a distance, but the University was not a true physical part of the city.

In time both the city and the University grew. Denver spread, as cities are known to do, and slowly absorbed the area around the hill. The University grew as well, adding buildings and stretching down what we know as Evans Avenue. An early photo shows University Hall and the Iliff building and in the distance one can see the towers of Loretto Heights reaching off the plain.

Today it is very difficult to see Loretto, and unless he lives in one of the Centennial dorms, a student seldom notices the center of Denver from the campus. The University is no longer outside the city, and one does not refer to DU as "Tramway Tech" as he might have during the era of street cars.

The physical boundaries of the University Park Campus are easily defined — Buchtel Boulevard on the north, East Harvard Avenue on the south, South Josephine Street on the east and South High Street on the west. For all the centralized buildings for administration, education, and housing, the true limits of the University of Denver are not as easily found.

The final impact of an institution for higher learning upon a community is not a definable thing. To date, the University of Denver has graduated 49,431 students in a myriad of fields. They all are, in one

way or another, bits of the University, people with the stamp of the University of Denver. We have the Denver Research Institute and soon will have the NASA facility, and the influence of the University in the world of technology and science is growing through them. A list of the obvious and subtle influences the University has on the community would be endless and its compilation futile. This impact is natural, but the stream of influence between the University and the community is a double system. The University is not an autonomous structure. It does not exist apart from the community that surrounds it and gives the name, University of Denver. Even though a privately endowed institution, DU is neither physically nor attitudinally separate from the city.

In 1864 Denver was a small and not very pretty town close to the foot of the Rockies at the confluence of the South Platte River and Cherry Creek. Today, except in time of flood, Cherry Creek is almost dry and the South Platte is some-

thing a student generally learns about by reading a map. Denver is larger and is putting on a modern sheen, but the city still retains something of the feeling of a small town. Walking on the street a stranger can still ask for and receive directions or simply the time of day. People in Denver seem genuinely friendly, but the city is growing and the University is growing with it.

In 1880 there were 150 students at DU. This year enrollment was 8173. Numbers and statistics — things that represent little but that are supposedly necessary.

Technology has given administrators marvelous tools for keeping track of students — data processing and computerization. Everything is in a file somewhere. During registration each student completes a handful of punch cards, registration cards, class cards and personal information cards until he feels like a small card punched with an intricate series of holes. The sheer number of students makes this grey world of statistics necessary.

Each individual at the University of Denver is many things, but the most horrifying thought is that one of these things is a cold series of numbers and names, places and dates, printed on endless sheets of paper and punched into cards. Growth, both of the city and of the University, means more people, and more people necessitate data processing and numbers.

The punch cards and computers are necessary and part of the University as a whole — but sometimes an individual becomes lost in this grey world of statistics.

Student Government

Sophomore class president Chet Johnson ponders an earth-shaking decision in his position as chairman of the Calendar and Certifications Committee.

Doris Guess, president of the Bizad Commission, tries to catch the attention of the AUSA presiding officer.

Student government didn't set any records in numbers of students involved in most of its activities, a fact which might discourage all but the hardest from even bothering with such matters.

Few students care to get involved. For those who are really trying to get top grade averages, a 14-hour day is not an uncommon effort to keep up with classes and required study time, and there's little time or inclination to worry about student government. The student who's just getting by with a 2-point average doesn't care about student government either — in fact, he cares little about anything except getting that piece of paper at the end of four years that signifies he's put in some time here and hasn't caused too much trouble.

"Kids have their private interests and they don't really tie into campus activities for the most part," philosophized the sometimes brash, often-criticized and usually

The complexities of student government are often very trying for faculty advisors; but perhaps that's only cigarette smoke in Al Serafin's eyes.

Bill Newcomer, Senate Vice President, patiently explains the finer points of pumping gasoline to Senate President Bill Pace. Newcomer defeated Pace in the Spring AUSA election.

energetic Bill Pace, student body president. Pace and Student Senate didn't settle for the status quo — if there was a way to get the student involved and back on the campus for more of his non-academic activity, they looked for it — and found it most times. They tried a couple of religious speakers, Francis Schaeffer and Bishop James Pike. Schaeffer, whose visit was timed dangerously close to Thanksgiving break, had few listeners. Bishop Pike, riding on the crest of a nationwide wave of publicity, drew a turnaway crowd early in winter quarter. Timing wasn't all of it — editor Penn Jones, Jr., who challenged the Warren Commission report on President Kennedy's assassination, came during finals

week of fall quarter and talked to an SRO crowd. Harry Belafonte fared well in autumn, too, and folksinger Judy Collins packed 'em in in winter at another Student Senate-sponsored entertainment. Sammy Davis, Jr., started shaping up as another sellout at K-book's late March presstime for his April 21 date in the Arena, despite fairly stiff prices.

Encouraging signs cropped up elsewhere to assure the few stalwarts that student government is not dead. The turnout for freshman class elections was up considerably from a year earlier. So was the involvement of non-Senators on Senate committees, commonly staffed this year with one or two Senators and a larger num-

Russ Richardson, freshman class president, strikes the pose appropriate to Student Senate deliberations.

ber of interested students. Some 50 students were working actively on the course-faculty evaluation project, one of the most ambitious and controversial projects ever launched and one deemed sure to spawn a new storm of protest when its digested results appear as a handbook to guide and caution the student seeking advance information about classes he might take.

Senate worked up a few discussion sessions on matters that might be of wide student concern, too, and tagged them with a five-letter word to draw bigger crowds.

The well-heralded "bitch-ins" covered several topics. One on student government filled the Pioneer Room, bringing out a lot

of supporters of Students for a Democratic Society (SDS) as well as a respectable number of those ready to defend the present arrangement of student government. By contrast, another "bitch-in," suggesting that the campus yearbook, the Kynewis-bok, be dropped, drew a paltry and inconclusive crowd of 38.

SDS, organized principally by activist grad students Jack Kirby and Gary McCool, posed the biggest threat to traditional student government during the year, bent a few rules on campus organizations, lost a chance to go underground in early spring, and perhaps spurred those in the present system to achieve more than they

Two unidentified coeds and one unidentified hand take careful notes at a Women's Interhall Council meeting.

Al Serafin and BoPub members Dave Peterson, Monty Hoyt and Connie Miner listen intently as K-Book editor Judy Branick explains the status of 168 past-due pages.

Louise Kaskisto, a member of the Civic Center Campus Board of Governors, concentrates on an important issue.

would have without a threat. SDS' future was uncertain, however, as the combination of student apathy and a liberal-minded Student Senate took a bit of wind from its sails. Not surprisingly, no SDS candidates ran for student offices in spring elections despite the group's traditional tactics of infiltrating and destroying existing student government channels.

Getting the word out about Student Senate and other student government activities was more of a struggle than many thought it should be. The Senate bought large chunks of Clarion advertising during the year, and ultimately brought out its own tabloid-size sheet, the *Spokesman*, for three issues in mid-year. Except for winter finals week, *Spokesman's* 4,000 copies per issue were evidently well read, judging from the few left at campus distribution points. Readership may have been helped not only by the novelty of a new publica-

Governing can be quite a grasping affair as Liz Johnston, University Park Campus Board of Governors member, discovers.

tion but also by its exclusive devotion to news of student involvement on the DU campus. The change was refreshing to those who had become weary of other-campus news via Collegiate Press Service dispatches which filled many Clarion columns. (Another poke at the Clarion was taken during the year by the sporadically published Flarion, a mimeo'd spoof.) Spokesman's third issue may have been its last, at least for the moment, as Senators considered budgetary problems and a trend back to more on-campus news in the twice-weekly issues of the Clarion.

Another avenue of campus information was DU Forum, a regular program series during fall and winter quarters on closed-circuit campus television, part of a general educational and student-interest program-

ming carried on by the University's Department of Mass Communications under a Carnegie Foundation grant.

Healthiest signs for the future of student government were spawned during the year by threats to the existing system. When everyone was nominally content with the present state of affairs, little happened. When someone came in wanting to change or replace the system, its defenders — and more participants — suddenly appeared in a remarkably militant stance. That cycle of activity — plus the promise of some real and controversial accomplishments such as the faculty-course evaluation project — may have put the university's present system of student government in the best shape it has been for several years.

Neil Finkelstein, IFC president, and Sandy Smith, IFC judiciary chairman, think about how to keep Greeks from embarrassing little old neighborhood ladies.

Sue Conrad, center, and Mary Gin Kennedy confer with an unidentified Panhellenic Council member.

Jeff Supinger, A&S President, in far upper left, Cris Miller, IFC Senator, center, and Gerry Phillipsen, A&S Senator, listen thoughtfully at the bitch-in on student government.

At a Senate meeting, Chet Johnson, left, sophomore class president; Mike Massey, student organizations committee chairman; Cris Miller, foreground, IFC Senator, and Senate President Bill Pace, right, listen as Bill Newcomer, Senate vice president and head of AUSA Court, emphasizes a point.

Housing

Life in a University dormitory is something that all students should experience — at least once. The perennial complaints of students in college dormitories are numerous. Regimentation insists that one be at breakfast on time or go without. The small rooms instill a sense of claustrophobia about the ninth week. Somebody always has a next door neighbor who delights in listening to stereo recordings of Ferrari engines at 2 in the morning. Despite the shortcomings of the dormitory system, everyone manages to survive — and in pretty

good fashion at that.

Student living quarters at the University of Denver are “dormitories” in name only. Row upon row of 12 by 12 box shaped rooms have been replaced by multi-shaped comfortable living quarters with adequate closets, workable desks and even acceptable lighting. Drab lounges that used to feature a cement floor and two brown couches have given way to the homier touch of professionally designed spacious lounges with wall-to-wall carpeting and multi-color furniture schemes.

The plain, boxy apartment-dormitories were the first permanent campus housing built after World War 2. Their plainness is eased by the adjoining Harper Humanities Gardens, Evans Memorial Chapel, and the always-beckoning mountains to the west.

Johnson-McFarlane lounge areas provide reasonably pleasant places to chat, play cards, study, or just wonder at the interesting patterns of light on the ceiling.

Interhall Week was enlivened by the messageful twang of a folksinger's guitar and ballads about the contemporary scene.

It's not so bad being a fencesitter as long as you can sit on a stylish fence like this Centennial wall.

Newest of the University living quarters, the twin 10-story **Centennial Towers** provide students with sleek, modern living quarters and convenient facilities. The men's and women's wings are joined by a student commons on the main floor of the Towers.

Centennial Halls, a block from the Towers, have the same features as the Towers, only the residents have the advantage of not having to take a physical fitness course to walk to class. Life at the Halls was made better all around by the addition of movies in the lounge on Saturday nights and informal get-togethers to sing and talk. Taking all-over first prize in Inter-Hall Week, the Halls ran a Parisian gambling casino which was fantastically successful. The proceeds, of course, were donated to charity.

Elected groups of students residing in the Towers and in the Halls, govern their respective dormitories. Unfortunately the autonomy of the councils extends only to really important decisions — like choosing a band for the next commons dance.

Tender goodbyes have to be expressed in a well-lit elevator opening onto a well-lit lobby when the girls are housed in their own exclusive towers.

Open house provided some beautiful opportunities to see how the other half lives. Most agreed, this is living.

*Open house at Centennial Halls
and Towers was congenial.*

*Open house at Centennial Halls
and Towers was friendly.*

*Open house at Centennial Halls
and Towers was open.*

Between open houses, there were always the open lounges where public display of affection sometimes shocked University administrators and even the affectionate.

*Johnson-McFarlane's
pleated roof wasn't nearly
as interesting as the curves
on the sunbathers at
ground level.*

*Art on the wall alludes to more
pleasant times, but for now
it's study time in Johnson Hall.*

The girls in **McFarlane Hall**, the smallest of the three girls' residence halls, spent the year cultivating an informal atmosphere. Because of the dormitory's smallness, the girls were able to experiment with more lenient quiet hours and less strict dress regulations.

Johnson Hall peacefully existed beside its sister dormitory, McFarlane, unhindered by the knowledge that the hall is not as glamorous as the Hilton Halls and Towers. The boys initiated the showing of such first-rate films as "The Making of a President: 1960" and "The Bridge" every Wednesday evening.

Sign-out at McFarlane desk. Traditional hours and rules were observed, although some campus-housed women were emancipated on an experimental basis.

Ever wonder what lives inside all those windows and walls? Here's a sample, out for combined sunshine and study.

Life in apartment-dorms has some drawbacks. You don't have to settle for the current offering in the dining halls, and can devise your own menu. But someone has to take care of this little detail.

The swings were meant for small fry, but on a warm spring day before the kindergarten set gets loose, Sharon Cay and friend take a turn.

While missing some of the luxury of the girls living in Centennial Halls and Towers, girls in **Hilltop Hall** spent the year disproving the old administrative belief that the University must watch over the female students even closer than most of their parents do. Given the freedom to come and go as they pleased, girls in the experimental "honors" dormitory proved that coeds could set their own hours without taking unfair advantage of the privilege to stay out past the bewitching closing times of midnight on weekdays and 1:30 a.m. on weekends.

While **Aspen Hall** residents were subject to dire fates and punishment if they checked in five minutes after closing, each girl was given the opportunity to develop her own unique personality through tea and crumpet functions within the dorm.

Women in **Spruce Hall** had the convenience of living in an apartment, complete with the regimentation and atmosphere of a residence hall.

The men in **Skyline Hall** interrupted the ennui of four walls and a ping pong table by meeting informally with professors. Skyline Hall was governed by "unique student government which departed from the general campus rules."

Frontier Hall offered the convenience of living within very short walking distance of classes and the benefits of apartment life.

The plain black phone still lives, despite Ma Bell's suggestions to the contrary in ads. But its messages make up for its drabness, at least sometimes.

Students washing dirty socks never had it so good as evidenced by the picture from the congenial laundry room in Centennial Towers.

Crowded storage rooms are indicative of crowded students in crowded rooms in crowded dormitories.

Living in a box room in a box dormitory sometimes leads to a boxed-in feeling in which eyes seem to be staring from everywhere.

The chefs don't have to carve each other. They have USDA, government inspected, grade A meat for a substitute.

Greeks

This was a dynamic year for Greek organizations at the University of Denver, although many of those who signed up for rushing didn't follow through with pledging. Many traditional organizations scheduled meetings which played to far less than packed houses, while some campus upstarts found ready acceptance and eager crowds for their offerings. Tired topics and campus cliches, at least those of prior years, were spurned; immediacy and universality of topics and some problems seemed more sure to draw a respectable but not always respectful gathering.

Fraternities found their members and prospective members taking a hard look at themselves and assessing their relevance to the University. Some found none. Others found a little, and a need for a great deal more. A few found satisfactory relevance between the Greek system and the campus in general. There were many attempts to involve the "common brother" — the fraternity man — widely in campus life, partially in response to the group deterioration that many fraternities experienced.

Many programs traditionally accepted and renewed by the Greeks were shunned and shelved as leaders and members together discovered that "conglomerates of asininity" wouldn't sell even the Greeks on the value of the Greek system. In short, Greek Week, May Days and sporadic culture binges were too superficial and silly to convince anyone.

Other evidences of fraternity self-assessment and attempts at renaissance: the Interfraternity Council headed by Pike Deke Simon, asked the faculty to perform a full year's evaluation of the fraternity, not just its physical and fiscal problems, but primarily its value as a living group and ways to enhance whatever value is there. The fraternities wanted to find out what makes good living groups good and the bad ones bad. They hoped some solutions and improvements to the situations discovered in the evaluative process would be underway before a summary report was issued late in spring.

Another try for fraternity improve-

ment: sensitivity training for house presidents and IFC officers late in April at Tumbling River Ranch, with speech department direction. Partly inspired by the sometimes self-perpetuating inwardness of the group and its members in many houses, the sensitivity training attempted to help members become aware of and involved in not just what goes on inside their groups but also outside of their groups. Hopefully, responsiveness and sensitivity to the relative needs of the individual inside and outside the group will develop to produce a more campus-integrated and life-integrated fraternity man.

For both the fraternities and sororities, Rush Week was a big, chaotic, expensive and disappointing bust. The fraternities hosted 750 prospects — pledged 350. Even with the better-than-half dropout rate, the fraternities realized that many newcomers were joining and staying without realizing what they were getting into. The sororities had 480 signed up for rush — only 200 co-eds pledged. As in the previous two years, the Dean of Women's office interviewed

a liberal sampling of the dropouts and discovered that at least during Pioneer Week, the girls couldn't decide during such a crowded schedule. A deferred or delayed rush is a sure thing for 1967-68, with sororities and prospective members giving each the once-over during October or January. With such a delay, the burden of proof will be on the sororities to prove their merits to the girls they would like to pledge.

Panhellenic activities, under the presidency of Mona Montes, included a tea for pledges and actives of all eight sororities at the Phipps House. Two hundred and fifty attended, making the event "very successful" in planners' eyes. The sororities revived Dad's Weekend as a campus-wide event after a three-year hiatus. About 100 fathers joined their daughters during the mid-February event.

Panhellenic sought also to strengthen its boards for scholarship, pledge training and other concerns common to each sorority by setting up one PHC officer whose sole responsibility was the administration of those boards. Junior Panhellenic activities included the traditional Easter Egg Hunt in Washington Park.

The Panhellenic philanthropic project at the Denver Children's Home was primarily expressed in the form of financial support to provide "extras" in the way of cultural and recreational activities that couldn't otherwise be afforded. More direct involvement and personal contact between the sororities and the youngsters at the home is hoped for in future years.

Other problems of the sororities were perennial. Houses were full and overflowing with residents fall and spring, even with the Sigma Delta Tau's brand new facility on South Josephine. Winter vacancies were common, though, as many sisters headed south for Mexican sun and studies.

Fraternities had house problems of a different nature. Residents around East Asbury and South Columbine were upset by the noise incident to more than 100 young men between the ages of 18 and 22 living in the fraternity houses near there, complaining to Chancellor Miller and Denver police. A friendly pacification tea at the Phi Kappa Sigma house brought warring factions together for at least a brief speaking truce, and established channels to handle future complaints.

The Pi Lam Tom Jones Dinner — and a fight to the death between Brad Gore and a turkey leg. Wet and bare, Brad won by the judges' decision in the eighth round.

As Cheryl Glasnapp hits the water (?) jug, Emmet McHenry shares a few thousand well-chosen words with the rest of the gals during the infamous powder-puff football game.

Brotherhood triumphs in a cooling beer shower administered by a pair of Pi Lams during the Tom Jones revel.

Hairy legs and baby bottles weren't quite enough to bring off a victory for the Sig Eps. Theta Chis piled up first place tallies in team costume, team contests, king costume and a third place in the running events to make them the overall PJ winners.

A TEP's good humored outcry is matched by a winning smile for SDT to help smooth the way for second place honors in their jointly-produced Greek Week skit. Opposite page: Over where? With World War I doughboy garb right out of the mothballs, TEPs marched through their skit with vigor.

Would you believe coffee in the Chianti server? Dinnertime for TEPs gets an approving smile, if not a tip, for prompt service of whatever the beverage is.

Organizations

Student AID

Real interior designers at Castle-West hosted a Student AID meeting and tour of the shop.

Geoff Wylde, Student AID president

Student AID members toured the homes of several prominent Denver designers for a taste of top-notch design.

The American Institute of Interior Designers, University of Denver Student Chapter, was chartered in 1961. Since that time its importance has become increasingly evident as the department of interior design continues striving to prepare its students for the greater challenges of the future.

This year, more than ever before, the Student AID has attempted to meet the challenge by preparing meaningful extra-curricular programs designed to supplement those of the classroom. The student chapter of AID, like its professional counterpart, is not a social organization, but a work group dedicated to the problems of design as it confronts man in his environment. As such, there is no limit to its aspirations for providing the student of design with a well-rounded practical, as well as academic, background. To this end AID hopes to stimulate increased interest in a field where interest is a prerequisite to success.

Town Women

Formed to help Denver area coeds living off campus feel "at home" on campus, Town Women held a tea for Denver area high school seniors to explain the many opportunities for students to participate in campus activities while living at home. Another Town Women activity was an apartment warming at Spruce Hall during fall quarter.

TOWN WOMEN — Left to right: Diane Hahn, Mary Lou Egan, Cherre Miller, Sue Egan, Sue Magde, Terri Kramer, Lorelei Jones, Pat Conner, Barb Stephens, Elsie Hughes. Mary Bingham (president), not identified, not identified, Roberta Mueller, Marylee Phillips, Judith Guyer (advisor), Frances Rumunno, Louise Rumunno, Pamela Ann Thurow, Linda Winklepleck.

One of the "swinging" groups on campus, 16 members of the Dudes and Dames square dance club met regularly to twirl and promenade. Besides providing square and folk dance instruction for new members, the group gave special dance exhibitions throughout the Denver area. Special events included an intercollegiate party with other square dance clubs from colleges throughout the Rocky Mountain area and a spring dance in the University Student Union.

Dudes and Dames

Dudes and Dames met weekly in Carnegie West for square dancing fun.

Pioneer Flying Club

The sky was the limit for more than 20 members of the University flying club who took to the air to get away from books and classes. Providing the opportunity for students to obtain a pilot's certificate through reduced rates, flying club members were well informed on map reading, weather forecasting and airplane structures. Advanced members had the opportunity to demonstrate their skills during a club sponsored "Fly-in" at Col-umbine Airport.

A club expedition takes shape with a foursome huddled over aerial charts.

Club members consult map of Europe to settle a question.

Gamma Theta Upsilon

Slides and discussion of landforms in Thailand was one of the many campus events sponsored by the Iota chapter of Gamma Theta Upsilon, national geography society. Meeting throughout the year, approximately sixteen students sought to strengthen their knowledge of geography outside of the formal atmosphere of the classroom and laboratory.

Mortar Board

MORTAR BOARD—Counterclockwise, Janis Beebe, Nancy Schmitt, Connie Miner, Tish Mead, Pat Holley, Gina Morrone, Karen Caufmann, Carolyn Mowery, Margie Nelson, Barb Worrell, Doris Guess, Suzy Llewellyn, Paula Sterns. Center, left to right, Ernesdyne Toliver, Su Hardin, Mona Montes.

Among the outstanding senior coeds on campus, the 17 Mortar Board members promote leadership, scholarship and service to the University. Mortar Board members served as counseling aids in the College of Arts and Sciences and assisted with registration. The organization held dinner meetings every third Sunday to discuss means of improving the academic atmosphere of the campus.

Suzy Llewellyn ponders.

Doris Guess explains her view while Pat Holley, left, listens.

*Spurs sold their traditional
Spur-O-Gram Valentine greetings.
Sue Weisner and Dawn McDonald
take an order.*

*Spurs proved themselves to be
top-notch ticket takers at many
of the year's sports events. Judy Jones
helps a spectator to his seat.*

Pioneer Spurs

From helping usher at basketball games to pouring at the Chancellor's Tea, Spur members contributed to their own development and to the University. Membership in the sophomore women's honorary is limited to coeds with at least a "B" grade average and high personal integrity, dependability and a desire to serve others. The University chapter hosted the national Spur convention during the summer.

Spur Kathy Morgan helped with the Ski Swap during the 1967 Winter Carnival.

Presenting a skit during Pioneer Week are Spurs (from left) Judy Jones, Emily Baker, Dawn McDonald and Mary Hupp.

Beta Gamma Sigma

The national business honorary society, Beta Gamma Sigma, taps only business students in the top 10 percent of their class, or juniors in the upper four percent. The Phi Beta Kappa's of the business world, Beta Gamma Sigma members sponsored a banquet and initiation in the spring and quarterly coffee hours to honor business students on the Dean's honor list. The honorary also presented a plaque to the outstanding freshman business student.

BETA GAMMA SIGMA — Row One, left to right: Michael Roesner, Suzy Llewellyn, Doris Guess, Paula Stearns, Dr. Robert Entenberg, Dr. Alonzo May, Dr. Margaret Brittan, David Phipps. Row Two: James Wilson, Jerry Kesselman, Raymond Emery, Dr. T. H. Cutler, Dr. Vernon Loomis. Row Three: Dean Wayne Shroyer, Dr. Paul R. Merry, Dr. Walter Fischer, Grant Schafer, John Polich (president), Dr. Eugene T. Halaas.

Learning the ethics of the teaching profession through association with professional teachers is the key goal of the Student Colorado Education Association. The student arm of the Colorado Education Association, more than 30 future teachers in the University chapter met three times per quarter to discuss the ethics, rewards and shortcomings of being a teacher. Several members attended the regional SCEA convention.

Student Colorado Education Association

STUDENT COLORADO EDUCATION ASSOCIATION — Left to right: Shirley Welsh, Barbara Lawrence, Linda Kinne, Dr. Carol Metsker, sponsor; Pamela Robinson, Eleanor Mars, Margaret Engstrom, Janet Smith, Joan Wise, president; Anna Marie Hatlelid, Suzanne Slaymaker, Lynn Riddle, Dr. Howard Wolum, sponsor; Sally Trieu, Dorothy Hunt, William Jones, Barbara Lerner, William Godsmann.

Alpha Lambda Delta

Primary function of the Alpha Lambda Delta sophomore women's honorary is to foster academic achievement among freshman women. More than 50 Alpha Lambda Delta members served as tutors for freshman women. Ranking in the top ten per cent of the sophomore class, a girl must have at least a 3.5 grade point average for membership in Alpha Lambda Delta.

ALPHA LAMBDA DELTA—
Row One, left to right: Emily Baker, Terri Turner, Julie Atwood, Ruth Unzicker, Pam Leggett. Row two, left to right: Leapha Schachet, Ruth Buechler, Francie Silberman, Shirley Luper, Gayle Robinson, Linda Thomas, Joann Besseghini, Dr. Lillian Hoffman, Cheryl Goldstein, Jean McFadden, Janice Fanning, Karen Warren.

Students talk with Max Frankel (standing), University counselor to Jewish students, and Rabbi Earl Stone at one of several informal meetings during the year.

B'nai B'rith Hillel

One of the largest religious groups on campus, approximately 100 members of the B'nai B'rith Hillel met regularly to establish a social and cultural atmosphere for Jewish students and to seek a better understanding of different religions. During religious holidays, local families entertained members in their homes.

B'NAI BRITH HILLEL — Row One, left to right: not identified, Shirley Luper, not identified, Sharon Gold, Sharon Rosenberg, Lucy Kaplan. Row Two: not identified, not identified, Marcy Smirin, not identified, Betty Jo Bass,

Miriam Elsas, Hene Sakol. Row Three: (first five not identified), Alan Stein, Mark Goldman, Max Frankel, Rabbi Earl Stone. Row Four: (first two not identified), Tom Hecker, not identified, Robert Goodman, Joel Waterman.

From sponsoring lectures to weekly discussion sessions, members of the Christian Science Organization contributed to their own personal growth and the intellectual atmosphere of the campus. More than 30 students met weekly in Evans Chapel for services. The group sponsored a special Christian Science lecture winter quarter.

Christian Science Organization

CHRISTIAN SCIENCE ORGANIZATION — Row One, left to right: Richard Krieger, Jerri Lu Frei, Barbara Shutt. Row Two: James Arnott,

Joy Arnott, Walt Hieronymus, Sue Duncan, Stu Pennington. Row Three: David Hector (sponsor), Monty Hoyt, not identified, Avis Alexander, Liz MacIntire (president).

Betty Luellen and Jerry Hagstrom discuss an upcoming lecture at a Student Religious Council meeting.

Student Religious Council

A speech by the controversial Bishop James Pike and a poignant lecture on "Being a Sexual Person" by national Christian leaders Mr. and Mrs. William Genne were two of the outstanding events sponsored by the Student Religious Council. The Council serves as a coordinating body for twelve religious and quasi-religious groups on campus, striving to foster dialogue among students on contemporary religious thought.

United Protestant Community

The desire to approach the Christian faith seriously—through doubt, or affirmation is the central goal of students in the United Protestant Community. Composed of the joint ministry of several free church Protestant denominations, the United Protestant Community sponsored worship services, study hours, and work sessions to help enrich the Christian experience. Members of the United Protestant Community met regularly to tutor children from the poverty-blighted areas of Denver under a special Inner City Parish program. The United Protestant Community also sponsored fall, winter and spring retreats at ranches in the mountains.

The Rev. Joseph Hardegree, campus United Protestant Community minister, leads a discussion.

Under the Inner City Parish program, members of the United Protestant Community worked and played with children from poverty areas of Denver.

CIRCLE K — Row One, left to right: Charlie Bowman, Ridge Bond, Greg Brown, Mike Massey, Andy Snyder. Row Two: Tom Bauer, Bernie Margolis, (not identified), Bob Bennett, Don Occhiuzzo, Chuck Perry. Row Three: Duane Leslie, David Briggs, Jim Thompson, Mike Daquila, Daniel Zarlengo, Dale Yanari, Bob Schwab. Row Four: (not identified) Greg Sullivan, (not identified), (not identified), John Smits, Art Lohrman, (not identified), Bill Taggart, Bob Goodman.

Circle K

Activities ranging from helping to clean up at a local hospital, to publishing a "Who's New" guide of new students on campus highlighted the year for Circle K members. Approximately 25 men participated in the projects of the service organization, benefiting the University and the community. Many Circle K members regularly were observed conducting campus tours for visitors.

CIRCLE K — Row One, left to right: Jerry Baysore, Ben Brown, Todd Storer, Dave Rohr, Max Grassfield. Row Two: Tom Rapp, Fred Orth, Pete Friedman, Don Brown, Paul Ruttum. Row Three: Dave Lebsack, Dick Burgess, Paul Nicolaysen, Charles Rohe, Leroy Whitely, Richard Hertz.

Talarian

Better student-teacher rapport is the main objective of the 30 girls in Talarian, junior women's honorary. During the year each girl assisted a professor in administrative duties for two hours weekly. Talarian members frequently ushered at academic functions and conducted guided tours of the campus.

TALARIAN — Row One, left to right: Judith Guyer, Pat Holley, Stephanie Best, Donna Morris, Becky Lewis, Lucy Kaplan, Louise Rumunno. Row Two: Joy Beiswanger, Kay Eidemiller, Wendy Stephens, Lita Perry, Michele Feron, Lynne Cochran, Mary Virginia Kennedy. Row Three: Frances Rumunno, Linda Gerlach, Laura McCauley, Lynn Liddell, Jan Mahalchik. Row Four: Marsha Clift, Becky Marshall, Sharon Drasites, Sally Cook, Wendy Brown, Sue Duncan and Judy Allison.

Combining business work with pleasure is the central goal of the 30 men in Delta Sigma Pi, national business fraternity. Activities designed to strengthen the goals of the business students included several talks by professional businessmen. Social highlight of the year was the annual Rose Ball during February at the Cosmopolitan Hotel.

Delta Sigma Pi

Barbara Jo Hill was crowned Delta Sigma Pi Rose Queen.

Members of Delta Sigma Pi and their dates attended the Rose Ball at the Cosmopolitan Hotel.

Omicron Delta Kappa

In the fall, ODK, campus honorary leadership society, sponsored a discussion with Secretary of State Dean Rusk to help develop their leadership qualities. Composed of about 20 campus leaders, the men met regularly to talk on "any pertinent subject" of interest to the leaders of the diverse campus organizations represented in the group.

*Russ Nehrig,
Dr. Walter
Fischer and Al Serafin ponder
an issue at an ODK meeting.*

*Gary Charlson, Richard Terry and
Monty Hoyt chuckle at a comment of
one of their fellow ODK members.*

OMICRON DELTA KAPPA—Left to right: Russ Nehrig, Gary Charlson, Dick Terry, Dr. Walter Fischer, Steve Johnson, Monty Hoyt, Al Serafin.

Men's Glee Club

Described by director Gordon DeBroder as a "strong group with depth and maturity," the 55-voice men's Glee Club entertained audiences throughout the Rocky Mountain area. Highlight of the year was a February concert at the Denver Auditorium Theatre with the Jazz Band and University Chorale entitled "Up Tempo '67." The Glee Club presented a Spring concert in the Student Union and two concerts with the Colorado Woman's College Glee Club. They also sang before such groups as the Colorado Legislature, the Denver Rotary and numerous area high schools.

Above: Displaying the versatility of the Glee Club, the Melo-men perform at "Up Tempo '67."

Below: The complete Glee Club performs under the direction of Gordon DeBroder.

Alpine Club

One of the largest campus organizations with more than 260 members, the Alpine Club encourages students to get away from the campus and enjoy the mountains. Such enjoyment includes skiing, rock and mountain climbing, hiking, canoeing, or just reposing amidst the beauty of the Rocky Mountains. The Alpine Club also helped sponsor and promote the annual Winter Carnival.

One of the reasons for Alpine Club's success may well be its ability to recruit new members, evidenced at right by winning booth at Activities Fair.

During spring break, Alpine Club members took an exciting trip down the Colorado River. Scenes from their outing are shown below and at top of page.

Engineering Honoraries

ETA KAPPA NU — Left to right: Jim Walker, Dennis Laurence, Francis Fielder, Ray Barber, Chet Utt, Kenneth Trieu.

Composed of electrical engineering students in the upper third of their junior class or the top fourth of their senior class, **Eta Kappa Nu** honors scholastic achievement and fosters professional interest in electrical engineering. Highlighting the year was a spring awards banquet.

General excellent in all branches of engineering is recognized through membership in **Tau Beta Pi**, national engineering honorary society. Each member must possess outstanding character and be in either the upper 12 per cent of the junior class, or the top 20 per cent of the senior class. A winter initiation banquet was the chapter's only formal event during the year.

TAU BETA PI — Row One, left to right, Larry Cannady, Gary Van Riper, Steven Johnson, Richard Terry, Dennis Weder, Larry Ching.

Row Two: Ivan Huntoon, Steinar Fjeldheim, Jon Overlund, Jim Walker, Dennis Laurence, Frank Haydock, Gary Charlson, Edward Block.

AMERICAN INSTITUTE OF CHEMICAL ENGINEERS — Row One, left to right: Dr. L. B. Wingard, G. G. Van Riper, Doug Rausch, Gary

Charlson. Row Two: David Naulty, Warren Johnston, Dennis Weder, James Conner. Row Three: David Wick, Robert Williams.

The University chapter of the American Institute of Chemical Engineers provides students with an opportunity to become better acquainted with the standards and goals of professional chemical engineers. Activities of the group during the year included field trips, and discussions with faculty and guests from outside the University.

The University chapter of the Institute of Electrical and Electronic Engineers helped introduce its 30 members to a professional engineering atmosphere through conferences and guest speakers. A highlight of the year was presentation of student written electrical engineering papers at the regional spring conference.

INSTITUTE OF ELECTRICAL AND ELECTRONIC ENGINEERS — Row One, left to right: John Vos, unidentified, Dennis Laurence, Jerry Wothe. Row Two: Eden Recor, Larry Cannady, Bill Petersen, unidentified, Larry Roesch. Row Three: Andrew Garramone, Roger Adamchak, Mike Wenzel, Dick Walker.

Engineering Societies

AMERICAN SOCIETY OF CIVIL ENGINEERS — Row One, right to left: Art Pratt, Ken Fosha, Ivan Huntoon, Mariano Marquez, Morten Akse, Larry Jostes, Larry Gallegos, Orlyn Bell, Ed Binggeli. Row Two: Dr. Allen

Dye, Ted Mew, Erik Brinchmann, Bob Valley, David Macurdy, Steinar Fjeldheim, Taher Fadhli. Row Three: Morgan Edwards, Jon Truebe, John Dahlen, Richard Weyermuller, Don Blackman, Roger Hanson, John MacKown, Jon Overland.

Better means of designing and constructing highways was one of the main topics considered during the year by the University chapter of the American Society of Civil Engineers. Speakers on problems confronting the civil engineering profession and field trips to various construction sites helped acquaint ASCE members with the engineering profession.

One of the most active professional societies on the campus, the American Society of Mechanical Engineers, met regularly with experts from industry and the Denver Research Institute. Three members presented papers at the regional ASME conference at Provo, Utah. The group also toured the United Airlines Training Center in Denver.

AMERICAN SOCIETY OF MECHANICAL ENGINEERS — Row One, left to right: Donn Fairbank, Larry Ching, Steve DeVore, Gordon Ney, Wilbur Parks, Row Two: Steve Johnson,

Donald Brownell, Edward Block, Richard Terry. Row Three. C. W. Chiang, Fred Fry, John Weese, Gunnar Gilsa, Paul Thor, Frank Haydock.

OZRIM — Left to right: Steve DeVore, Bruce Lawrence, Bruce Rose, David Caster, Meg Blaine, Lucy Kaplan, Ellen Bragg, Ken Craw, Boyd Fetterolf.

Ozrim

Coordinating events and fostering better living conditions in the University residence halls was the main activity of **Ozrim**. Composed of outstanding students in the residence halls, approximately 30 members worked to improve the residence halls system. Highlight of the year was attending a spring residence hall convention in Manhattan, Kansas.

Ozrim members prepare to leave for a regional residence halls conference at the University of Kansas in Manhattan, Kansas.

Beta Alpha Psi

The Alpha Zeta chapter of Beta Alpha Psi, national honorary accounting society, spent the year tutoring business students and in general promoting high standards among them. Besides helping other students, Beta Alpha Psi members recognized outstanding work accomplished by the future accountants in the University College of Business Administration.

BETA ALPHA PSI — Row One, left to right: Roberta Blanchfield, Joe Chavez, Jerri Beutler. Row Two: James Sorensen, Roger Butterwick, Jack Kitchell, Jim Peterson.

Phi Beta Lambda

The University Phi Beta Lambda chapter hosted the State convention of the national organization in May. Composed of 18 female business education and office administration majors, the group met twice monthly with a speaker at one of the meetings. The chapter also assisted with the annual Certified Public Secretaries tea at the University.

Four unidentified Phi Beta Lambda members check notes at a business meeting.

Alpha Epsilon Delta

The campus branch of the national pre-medicine honorary, Alpha Epsilon Delta, sought to honor scholarship achievement and to enrich the student's knowledge of the ethics and practice of medicine. The organization sponsored speakers and discussions to promote cooperation between educators, medical and pre-medical students.

ALPHA EPSILON DELTA — Row One, left to right: Joel Lebovitz, Steve Linder, Gary Dickey (president),

Tom Lubchenco. Row Two: Dr. W. T. Driscoll, Barnett Slepian, Larry Coffee, Frank White, Robert Bathurst, W. Steven Baker, Michael Roark, John Nelson.

Serving as ambassadors of the University through singing, the **Women's Glee Club** performed throughout the Rocky Mountain area. While singing at schools and churches, the members of the Women's Glee Club received a satisfying and rewarding musical experience as well as the opportunity to meet new people.

Women's Glee Club

Gordon England
explains a chorus.*

WOMEN'S GLEE CLUB — Row One, left to right: Charlene Heister, Marsha Moses, Charlene Smith, Merry Jo Moles, Linda Walden, Betsy Pomeroy, Sheila Volzke. Row Two: Wendy Scott, Cheri Miller, Sherri Brookfield,

Paula Catlin, Lea Schachet, Kathy Walton. Row Three: Sue Postma, Anne Saviers, Marianna Ikeler, Jody Humphreys, Nancy Howard. Row Four: Linda Thomas, Shirley Coles, Mona Helfer, Tryna Van Dusen.

Newman Apostolate

Assisting children at the Good Shepherd Orphanage with arithmetic, spelling and reading lessons was the prime object of the University Newman Apostolate during the year. The group, which provides Catholic students on campus religious, social and education opportunities, also sponsored a visit to St. Thomas Seminary and several religious speakers. For the first time in the group's history, Mass was held every Sunday in the University Buchtel Chapel.

A fall series of discussions in "Problems in Contemporary Christianity" highlighted the year's activities for the campus Lutheran Student Association. The 10 members of the group also participated in several mountain retreats and Student Religious Council activities.

Lutheran Student Association

Members of Lutheran Student Association relax before embarking on serious discussion.

The Episcopal Church

Focusing on being a center of worship for the 900 Episcopal students and 60 faculty-staff members at the University, the Episcopal Church held Sunday worship in Evans Memorial Chapel. Attendance was up considerably during the year, averaging between 70 and 100. The most significant event of the year was the appointment of a faculty-student committee to oversee the work of the Church on campus and to assure continuity in the future. The Rev. W. Christian Koch is campus Episcopal chaplain.

Informal chats with the chaplain and friendly get-togethers over coffee after worship, made for memorable Sundays.

Pi Gamma Mu

Pi Gamma Mu, social science honorary society, encourages interest in the social sciences and provides opportunities for students to meet with faculty to discuss social problems. Approximately 40 students with at least a "B" average in the social sciences met regularly during the year for discussion and debate.

PI GAMMA MU —
Mike Massey and Doug Brown.

Young Republicans

YOUNG REPUBLICANS — Row One, left to right: Not identified, Tom Shelton, Rita Stark, Dr. William C. Stickler, adviser; Ed Groonberg, Peggy McMahon, Marilyn Brill. Row Two: Charles Bowman, Mike Massey, Ron Marquez, not identified, Tim McCarty, Leigh Morris, Peggy McMillin, Steve Pollack.

The University Young Republican Club, 85 strong, began the year with a "get-together" picnic and a rally. The Club was involved in a state research project and between this and the November elections, the Club tallied 2,000 hours to help make 1966 the Year of the Elephant.

This year DU Y.R.'s embarked upon a series of seminars to implement their motto of "Education and Action." These seminars were concerned with Republican principle and philosophy. In February, the Club participated in the College Republican Winter weekend, where a platform was drawn up to be ratified at the State League Convention in April at Colorado Springs.
